

Full Moon in Taurus ~ Goddess Venus Ritual

Ritual written by Gabriel and presented in Sydney by Janine and in Nowra by Samantha on Friday 23rd October 2015.

As Gabriel did not want his work shared publicly, only a brief outline of the ritual and some photos from the Sydney circle have been shown here.

The focus of this ritual is on beauty and harmony. We shall be invoking Venus in her many forms and will be drawing and empowering a sigil of Venus (planetary) as well as drawing our own signature sigil so that we can draw on the energy throughout the year.

You'll need:

A piece of paper or green candle

A green pen or pencil or something to inscribe the sigil into the candle

A flower, perfume, wine, honey, fragrant spices or anything beautiful to place on the altar as an offering that you will later leave outdoors or pour into the earth

A wreath of flowers or leaves to wear as a crown for the ritual itself which must also be offered afterwards.
