

FULL MOON IN AQUARIUS

Ritual written & led by Janine Donnellan
(July 23, 2010)*

The Full Moon in Aquarius gives us a window of opportunity where we can create new ways of thinking and being. We are given the opportunity to look at others and the world in love and as a sister/brotherhood, we are all one. We can use this loving energy to create new ways of being for our self, moving beyond the limitations of duality and separation. Where in our own life can we create a more unified, humanitarian approach to the way we are and what we do?

Humanity is asleep, and we live in a false culture, one that is out of balance with life and its elemental powers. Many of us know now what the price will be, more or less, for the excesses of our current lifestyles. And that too is in keeping with cosmic law. On the night of our circle we will journey back to Avalon and connect with Vivienne & Merlin in order that we may learn the ancient spiritual concepts to live in balance with life once again - accepting and enjoying it for what it is,

and being part of its revelation.
