

## Beltane ~ Full Moon in Taurus/Scorpio

*Ritual written\* and led by Janine Donnellan  
(October 30, 2009)*

The Full Moon in Taurus is a time of sensual, earthy abundance of creation and the gifts we receive from Mother Earth, polarised by Scorpio and the spiritual sight to see the beauty and love in creation.

The Taurus Full Moon coupled with the fertility of Beltane is the perfect time to celebrate who we are. On this night, we will be working the energy of Pan and the Spring Maiden, celebrating the union of the Goddess and the Horned God, and the fertility in all things.

To celebrate the fruitful earth in a sacred manner is to constantly renew the ancient contract between human beings and the Divine. We too can feel this great turning of the Wheel of the Year in our own bodies, hearts, and minds, if we are willing to open up to the creative forces that flow through us, and learn to live in harmony and balance with each other and with the Earth. The wisdom of the Wheel of the Year can liberate us from our modern linear model of time, reminding us that death yields to life repeatedly.
