

BLUE MOON IN ARIES

“I am Light”, I am the doorway to my new reality”

The moon in the same sign twice intensifies the energies so with this Full Moon twice in Aries you are given the opportunity to consciously create the new you. You are hologram of your Love and so with these energies with us you can create yourself in alignment with your soul and allow for the divine spark to ignite more fully from within.

On this night we will connect to the energy of the Aries Full Moon under the guidance of the Queen of Heaven - the Great Goddess Isis. On this night She will be empowering us to stand in our own true light. We should not be afraid to be who we are in this life. Our physical time is limited, so live from the heart, without the shackles of regret. What we believe about ourselves is what we will become.

At beginning of the night we will be collecting a gold coin donation for the Egtober Foundation. SOL will match the amount collected on the night.

We begin the evening in the Ante Room where we are smudged and undertake a meditation to create the Temple of Isis and to place us in the underworld. To cross the pathway over the River Styx, a river that separates the world of the living from the world of the dead. We must first approach the Ferryman Charon and give him a gold coin in order for us to be escorted safely into the underworld.
