### FULL MOON IN PISCES

The Full Moon is a time of completion and celebration, in Pisces the spirit and cosmic bliss are illuminated and grounded through the Sun in Virgo. Be clear about your dreams and give them out to the Universe if you feel in your heart they are in alignment with your being in divine will. You are nurtured from your true Cosmic origins and can bask in the cosmic rays of love. Time to be from your love, compassion and giving nature as you share your joy with others and this beautiful planet. This energy is able to be fully embodied once you breath through your fears of being in a body and know and be your true cosmic self in a body on Earth. It is a good time with the Sun in Virgo opposite to do any deep inner healing and to love unconditionally yourself and all beings.

### Sun

Without the Sun there could be no life and growth or fertility. Yet in excess it can be a destructive force. It affects winds, weather and like the moon the tides. The sun can be gentle, empowering, healing or beat down over parched deserts, burn skin or wither the crops.
