**Full Moon Circle — 16th August 2019**

**Quetzalcoatl**

## **Full Moon in Aquarius (15/08/2019 10:29pm)**

This Aquarius full moon is opposite a whole group of planets in heart-centred Leo! Mercury, the sun, Venus, Juno, and Mars are all in the fixed fire sign, making us feel like everything is an expression of who we are at the deepest, most essential level. On this night we will be connecting to Quetzalcoatl, a Mesoamerican "feathered serpent" or "plumed serpent" who represents the ascension of human consciousness back to its origins. Along with the higher values of Aquarius this full moon will align us towards a greater sense of united brotherhood/sisterhood with objectives of bettering society and our world.

**Quetzalcoatl** ("feathered serpent" or "plumed serpent") is the Nahuatl name for the Feathered-Serpent deity of ancient Mesoamerican culture. In Mesoamerican myth Quetzalcoatl is also a mythical culture hero from whom almost all mesoamerican peoples claim descent. These myths often describe him as the a divine ruler of the mythical Toltecs of Tollan who after his expulsion from Tollan, travelled south or east to set up new cities and kingdoms. Many different Mesoamerican cultures, e.g. Maya, K'iche, Pipil, Zapotec claim to have been the only true lineage of Quetzalcoatl and thus of the mythical Toltecs. ### **Meditation**

Moving into the centre of the circle you begin to feel misty luminous clouds rise all around you until you are covered in a white fog of mist and light.

You feel yourself standing on what seems at first to me a mountain top with hard flat stone underneath your feet. As the clouds fall away you see yourself surrounded by a bright sunny sky with wispy clouds. A vast expanse of sky blue all around you.

You look down at you feet and realise you are not standing on a mountain instead you find yourself standing on the top of a great Aztec stepped pyramid. You see ancient carvings of the gods and the ancient people. The ground below the pyramid covered in lush jungle that is teeming with life.

Time speeds up as you watch the midday sun fall into a dusky twilight and then into a starry and moon lit sky until it is a though time is now standing still. You look up towards the bright star of Venus as it grown brighter in the sky.

The star grows brighter and you notice it approaching it starts to look at first like a comet flying through the night sky and you realise it is a great dragon covered in every possible colour snaking its way through the atmosphere as it approaches.

It is the God Quetzacoatl making his way from the starry heavens to meet with you on top of the ancient stepped pyramid. In a whirl of feathers he transforms into a man wearing a plumed regalia of the ancient Aztec people. He greets you with a smile and you feel a sense of kindness.

He has come this night to us our souls journey through space and time to know where we have been in in life and the past so we may better know where we are going for ourselves and the whole of humanity. We see that time is not linear and moves in cycles in accordance with a great cosmic order.

Take a few moments now to open your heart and mind to receive what he has to share and when you are done I will call you back....

You thank Quetzacoatl for his teachings, He smiles again and in a flash of light he returns to the night sky as the star Venus.

Time speeds up once again and the moon falls on the horizon as a new day dawns. Clouds once again fill the sunny sky, you watch as the clouds grow thicker around you.

(bring people back through cloudy fog)
