

# Cancer Full Moon - Rose Moon

*Ritual written\* and led by Janine Donnellan*

## **Background Information...**

In Cancer we have the Goddess nurturing, loving, and caring. Energy polarised by the Capricorn practicality. This Polarized energy activates the DNA from within the water of the cells.

## **DNA Activation: 22 Strand Activation**

Initially the 22 strand activation was used as a rite of passage in the ancient mystery school traditions to activate high priests and priestesses, prophets, and oracles.

Activation of the 22nd strand has been handed down from the time of King Solomon and is now being offered from the realms of spirit to bring humanity into full empowerment.

You are now moving beyond the type of body for which the human being was originally designed. You are moving out of the mere human experience and into a different level of being.

The 22 strand activation will give you access to the secrets and mysteries of who you are and what your purpose is. Some of the benefits of 22 strand activation as enumerated by Archangel Metatron are:

- Enables you to bring in and hold more Light in your physical body
- Empowers you to maximize your potential to bring forth unrealized talents and abilities
- Gives you more energy and clarity
- Strengthens your immune system
- Assists in releasing of unconscious patterns
- Increases your ability to use more of your brain
- Facilitates clearing of family and genetic karmic patterns

## **Anahita**

A Persian water goddess, cognate of Aphrodite (Greek goddess of love, sex and beauty), Anahita is sometimes regarded as the consort of Mithra, the old-Iranian god of light, contracts and friendship. She is a fertility goddess, and patroness of women, as well as a goddess of war.

Like Cybele ('the All-Begetting Mother, who beats a drum to mark the rhythm of life'), Anahita is one of the forms of the 'Great Goddess' which appears in many ancient eastern religions. Temples to this goddess were built at Babylon, Soesna and Ecbatana.

Like the later female deity, the Virgin Mary, Anahita is without spot or blemish, for the name 'Anahita' means 'the immaculate one'. She is portrayed as a virgin, dressed in a golden cloak, and wearing a diamond tiara; sometimes she also carries a pitcher. Anahita's sacred animals are the dove and the peacock.

Both protective mother and warrior defender of her people, she was also the goddess of rivers and waters.

Bestowed Major Powers - Alter Physical Structure Liquid, Hydrokinesis, Telereformation

**HYDROKINESIS**- The ability to control water, this power replaces Control Elemental Force Water and Hydrokinesis from Psionics.

**TELEREFORMATION** - This is a peculiar form of Self Teleportation. The hero can disintegrate his body, transport his life force any distance, and then create a new body out of materials available at the destination site. The power shapes these into substances that composed the hero's original body. Alternatively the character can create an altered version of his self-image. Obviously, most heroes with this Power cannot carry objects, passengers, or clothing. However a costume may likewise be generated from available material. The power can be diminished or destroyed by mental Powers that alter the hero's self-image. If the hero loses his self image, then the next use of the Power results in his bodily annihilation and conversion to an Independent Spirit.

## **Mithra**

Sacrificial God - the story similar to Jesus except he predates Jesus. He is born near a sacred body of water and he is associated with Ra the Sun God. He is also called the shining one and is responsible for contracts. He is on the same level as Metatron.
