Full Moon in Capricorn and a Lunar Eclipse (Full Moon 2:44pm 5/7/20)

The Moon in Capricorn with Sun in Cancer is all about the structures, work, and goals you make in regards your life, security and home. Are you focused on merely your insecurities about how you live or are you ready to break through your limitations and adapt to your own life's true potential? Are your goals merely for the little you or are they for the initiate you, the co-creator who is here creating Heaven on Earth? You have the cosmic energies with you to start moving into the bigger picture of your purpose on Earth and what you are here to achieve from the level of yourself as a Co-creator.

All eyes will be on USA as the lunar eclipse hits on the 5th July a day after their Independence Day celebrations. July kicks off with Saturn retrograde re-entering its sign of rulership, Capricorn, on July 1. Saturn is often referred to as "Father Time" and the "Lord of Karma. The chaos playing out at the moment will come under Saturn's disciplinary nature and some form of retribution will certainly be divvied out to those who at the core of the problem. This lunar eclipse in July in the sign of Capricorn is the final Capricorn eclipse for some years. We've had these Cancer and Capricorn eclipses for a couple of years now, and we're closing the books, ending chapters, and wrapping things up now. There may be a sense of big things coming to an end, and this may be the culmination of something that started 1 1/2 - 2 years ago.

Interestingly, the constellation Capricornus has one of the oldest mythological associations, having been consistently represented as a hybrid of a goat and a fish since the Middle Bronze Age, when the Sumerians used the Goat-Fish" as a symbol of their god Enki.

Enki

Enki (also known as Ea, Enkig, Nudimmud, Ninsiku) was the Sumerian god of wisdom, fresh water, intelligence, trickery and mischief, crafts, magic, exorcism, healing, creation, virility, fertility, and art. Iconography depicts him as a bearded man wearing a horned cap and long robes as he ascends the Mountain of the Sunrise; flowing streams of water run from his shoulders, emphasizing his association with life-giving water, while trees representing the male and female principle stand in the background. The streams are interpreted as the Tigris and Euphrates Rivers which, according to one myth, were formed from Enki's semen. His name means "Lord of the Earth" and his symbols are the fish and the goat, both representations of fertility.

Prosperity

On this night we will tap into this Moon's golden potential through a beautiful ritual to draw prosperity your way, designed to invoke an increase of physical, mental, emotional, and spiritual wealth in your life. Capricorn highlights the potential we all have to manifest our ambitions into physical reality. Capricorn's grounded, elemental earthiness makes this Full Moon the most powerful time of year to focus on manifesting financial abundance, prosperity and career advancement.

Tarot – The Devil

The Devil Tarot card symbolizes the Cardinal Earth Sign Capricorn, and so represents leadership and taking control of the situation in a practical way. The message from this card is a higher spiritual lesson you must learn. What is weighing you down? What problem in your life are you literally chained to? It could be addiction or substance abuse, often markers of this card. Harnessing the qualities of Capricorn and taking leadership on a key issue will help you to unleash yourself from these chains.

INVOCATION TO TIAMAT

Oh Great Goddess Tiamat, stir and arise, awake in the darkness, awake in the abyss,
She who is terrible to face, who devours and swallows up life,
She who brings life to those who face her,
She who is the begetter of dragons.
Stir up oh Dragon Goddess, I summon thee tonight!

INVOCATION TO ENKI

Welcome Enki, King of the world
Bring forth your benevolence in these troubled times.
Welcome

Activity — Prosperity Spell using Cinnamon

Cinnamon is a warming, fiery spice that can be used in spells for happiness, love and prosperity. Cinnamon can stimulate our solar plexus, opening the door to our highest manifestation power and allowing us to call in exactly what we need and desire.

After the meditation write down on a piece of paper what prosperity you want to bring into your life. Wrap the paper around the cinnamon stick and consecrate in the smoke of the incense.

Hold the cinnamon wrapped in your spell for prosperity over your solar plexus and open the chakra and visualise the fire within the chakra penetrating it with the fire and activating its absolute potential.

Meditation — Enki on the Mountain

Take a moment to relax your body and centre yourself, letting any tension release. Bring your awareness to the sensations of your breath, and the gentle rhythm it is creating within you. Move your thoughts to your solar plexus and expand the fire within the chakra and then expand the fire within your whole body. Feel the warmth within and around you.

See yourself standing up from your chair and moving through a tear in the fabric of reality and moving into another realm. You find yourself at the base of a mountain, whose peaks pierce clouds and continue upward where the air is clear and the view looks out into infinity.

In your mind move yourself now to the top of the mountain. Breathe in the fresh clear air, feel the energy of this mountain how does it feel to you. Take in the beauty of the landscape and become part of the vibration of this special place.

Feel the stability of this mountain and for a moment be this mountain. See the sun travel across the sky from dawn to dusk, casting light and shadows and colours across the landscape. See the full moon rise in all its glory throwing its gentle light on the slopes of the mountain, See the changing of the seasons spring moving into summer moving into autumn and then the cold blast of winter. Notice the abundance of life and see the duality of life play out in nature.

As you are taking in the mountain's beauty you notice an ancient building almost hidden by fallen boulders. As you move closer you see an entrance to this building. You move cautiously into the building and through dimmed light you see a ceremonial chamber complete with altar painted with ancient symbols. You stand in reverence and you wonder what civilisation had built this chamber.

"You have entered the temple of abundance" came a voice behind you. You turn to look, and a form moves from the darkness into the dimmed light. It is a man with a kind face. "I am Enki and I am here to help you find abundance in your life" He beckons you to move closer to the altar. Enki hands you a parchment and asks you to write down your abundance desires. "Look deep into your heart to see what you truly need before you write." When you have finished writing what you need you hand the parchment to Enki. He blesses the parchment and adds it to a hidden compartment in the altar. "It is done, your desire has been granted".

You thank Enki and he leads you out of the chamber. "Be wise in your choices and be thankful for what you receive"

Enki moves back into the ancient building and you are left on top of the mountain. A gentle breeze caresses you and you feel a shift in the energy around you. As you stand looking out over the landscape you take a quiet moment to thank the Universe for your fortunate life.

It is now time to return to your reality and you move yourself off the mountain and back into the circle. You bring your awareness back fully into your body. Assimilate what you have experienced and notice the shift within you. When you are ready wriggle your fingers and toes and open your eyes.
