

Spheres Of Light

Full Moon in Gemini ~ 17th December 2021

Summer Solstice 2021 (22/12/21 1:59am): **Honouring the Light Within**

Full Moon in Gemini (19/12/21 3:35pm)

The Summer solstice is almost upon us, reminding us to celebrate the nourishing light of the Sun and the light within each of us. During the Summer solstice, the Sun reaches its highest point in the sky and gives us our longest day of the year.

The cycle of the Sun represents the cycle of our lives and reflects the natural flow of energy moving inward and outward. There are times to grow, times to pause, times to shed and times to learn. Just as we align with the Moon's journey every month, we can align with the Sun's journey throughout the year. Summer reminds us that there is hope in the world, that the light within can spread to the far reaches of the globe and inspire others.

Summer becomes a time to work on ourselves and our ability to be the light and find meaning in our journey, even when it seems uncertain. This is the rhythm of nature, new beginnings transition into a period of uncertainty. During this time, it is easy to fall prey to anxiety and worry. Big shifts also cause old energies to surface and darkness can easily take over our mind. Summer is the time to

develop faith in our life, embrace the dark with the light, and trust that just like the Sun, we will rise each day no matter what life brings us.

Set Summer Intentions

The Summer solstice is an energetically charged day and an important one to set intentions. Create powerful intentions through sigils and spellwork. Include "reception" statements that open you up to receiving the energies available on this day. Examples are "I am open to receiving nourishment and growth" or "I am able to receive the energy needed to develop trust in my life." Set your intentions and continually remind yourself of them all summer long.

Express Gratitude

Expressing gratitude is a good thing to do any day, but especially on a Solstice. Write gratitude statements for everything that you already possess and everything that you want to come your way. Part of the manifestation process is to feel gratitude for what we want before we even have it. Through this act, we are telling the universe we trust that our wishes will be fulfilled, and the very act will call in the energy we desire.

Do a simple ritual on the morning of the Summer Solstice and feel yourself nourishing the light within you. Carry this feeling throughout the summer, as you align with the journey of the Earth and the Sun.

However you choose to celebrate this day, be sure to spend some time feeling the Sun's rays on your face and standing fully in the light as you learn to stand fully in the light of your own existence.

Gemini Full Moon

The final Full Moon of 2021 is upon us, bringing with it the mortal and immortal twin energy of Gemini. The Full Moon in Gemini peaks on Saturday, December 19, be prepared to tap into this energy with a focus on healing old wounds and shedding whatever you don't want to carry into the new year.

The third zodiac sign is ruled by Mercury, the planet of communication, which will be enhanced under this full moon. It's a good time to balance that throat chakra and speak your truth, whether to yourself or another. It's also a great time to speak out affirmations as this twin energy signifies a closer connection between our physical and spiritual worlds.

So, letting go of old grievances that may surface during this full moon is important. This way you don't carry negative residual energy into 2022. With Mercury squaring off Chiron, the wounded healer, we can let our guards down a bit, especially if you've built walls of resistance around you due to failed love. You never have to be someone's doormat but making slight mental adjustments or a change in perspective may be what's needed to clear the path for new possibilities.

In fact, the full moon in Gemini will be directly opposite the Galactic Centre, known as the heart of our Universe, which is chock full o' magic. It's the perfect dance between Gemini and Sagittarius to end 2021 with a bang. The Full Moon in Gemini represents our logical thinking, but Sag is a big picture kind of thinker. That balance is great fuel to rev up for 2022.

Spell Workings - Sun Sigil – we will be placing our intention on the rising sun sigil for the upcoming year. Write your intentions on any part of this page front and back. You can colour it if you like. It is important that you add your intent and vibration to it to be effective. We will be charging the energy and then on the day of the Summer Solstice you can release the energy to come back to you as a reality.

The Ritual

CLEANSING / BANISHING

Before moving into the circle we will stand behind our chairs, feet slightly apart, arms to our side. We will connect to fire at the core of the earth, bringing it up through our feet moving it through our bodies/chakras with the intent to cleanse our bodies, mind and spirit of any negativity and blockages. We will then move the fire into our astral bodies cleansing and removing negativity. We will then move the fire into the hall circulating the fire throughout the hall cleansing it of any negativity.

The Light Within ~ Meditation

We begin this meditation with drawing up the fire within the core of the earth up through to your root chakra, then up through your sacral chakra and then up to the Solar Plexus, the I am, the power of your core, the power of your radiance. It is from the solar plexus the power is raised within us. Take a deep breath in and breathe deeply into your core. Hold the sacred power that is in you, the seat of your soul. Now release. Release all your stress and anxiety from your body. Release all your doubt and fear.

Now continue the fiery energy up through your heart and throat chakras then moving it into your third eye feeling the energy burning through any blockages and giving you clear inner vision. Now look through your third eye and feel a tingling and make an adjustment to the vision making sure it is clear. Move the energy to the crown and then feel the energy opening the crown chakra opening it to new levels of vibration. Feel the crown chakra fully opened and fine tune it so that it filters the energy moving through your body.

Now feel your core power rising within you, feel the fire igniting your energy and feel your vibration rising to new levels until you see with your third eye your whole being shining a new bright radiance. As you are sitting in your chair you see the Watchers forming a circle around you. The Light Bringer stands in front of you holding a flaming sword, he pierces the veil between the worlds, and you see a swirling vortex before you. You see yourself stepping into the centre of the vortex and the energy of the vortex is now taking you to an unknown destination. As you travel through the vortex you feel your body becoming a bright beam of light, in the distance you can see a crimson glow before you. The glow becomes brighter as the energy in the vortex begins to slow until it gradually stops.

You are now standing on a precipice staring at a crimson and gold sky. You are waiting for the rising of The Great Central Sun which serves as a portal from the material realm to the spiritual. The Central Sun is the "power source" of all conscious existence within our universe. You are here to see the birth of a new dawn, a new beginning. As the sun rises just absorb its energy, embrace its light, and connect it to your light within. Absorb the crimson and gold energy, allow it to renew and reinvigorate you. Connect to its infinite wisdom and become one with the light and the unknowable. The Watchers will take you to a special place that will have significance for your spiritual journey. Just allow the images and the knowledge come to you without fear or judgement. Enjoy the experience and when it is time, I will call you back.

It is now time to return, this is the last time you will work with the Watchers, but they are always there with you if you need them. You bid them farewell and you return to the vortex and as you walk through the centre you feel the energy taking you fully back to where you are sitting, and you assimilate your new self into your body. Take note of all that you have experienced and when you are ready wriggling your fingers and toes and opening your eyes.
