## Full Moon in Virgo ~ 3rd March 2023

**Spheres Of Light**

**Full Moon in Virgo Zoom Ritual**  
**Friday 3<sup>rd</sup> March**  
**8pm (AEST)**

An ancient Egyptian wall painting depicting the god Thoth. He is shown as an ibis-headed figure with a long, dark blue beard and a yellow kilt. He is holding a long, thin staff or scepter in his right hand and a rectangular object, possibly a tablet or a book, in his left hand. The background is a light-colored wall with some hieroglyphs and other figures partially visible.

### Full Moon in Virgo

Virgo is an earth sign, its ruling planet is Mercury and it represents communication and the intellect. Virgo's Key Phrase is "I analyse." The Virgo spirit is altruistic, envisioning a better world. However, how can we as humans create a better world when we are ourselves flawed?

This Full Moon in Virgo (7/3/23 11:40pm) gives us a window of opportunity where we can create new ways of thinking and being. We are given the opportunity to look at ourselves and others for at the heart of everything we are one, we are human beings, we are above all else spirit.

Humanity is asleep, and we live in a culture that is out of balance with life and its elemental powers. Many of us know now what the price will be for the excesses of our current lifestyles. And that too is in keeping with cosmic law.

Tonight, we will be connecting to the great God Thoth and resonating to the higher vibration of 8, the symbol of infinity. We will use this high level energy to create new ways of being for our self and to help us move beyond the limitations of duality and separation.

### Thoth

Thoth was the god of the moon, sacred texts, mathematics, the sciences, magic, messenger and recorder of the deities, master of knowledge, and patron of scribes. His Egyptian name was Djehuty, which means "He who is like the Ibis." He was depicted as an ibis bird or a baboon.

Thoth was/is the god of proportion, equilibrium and balance who was associated closely with the principle of Ma'at. If we examine the mythology, Thoth became Hermes who was reborn as Mercury.

According to one story, Thoth was born from the lips of Ra at the beginning of creation and was known as the "god without a mother." In another story, Thoth is self-created at the beginning of time and, as an ibis, lays the cosmic egg that holds all of creation. He was always closely associated with Ra and the concept of divine order and justice.

Thoth was credited with creating the art of writing, inventing the calendar, and controlling space and time. Since he was the god of the moon, he had celestial functions and replaced the sun god, Ra, in the sky at night.

Thoth helped the funerary deities as a messenger and bookkeeper for them. He was responsible for recording the verdict of the heart-weighing ceremony that determined if the person was able to continue to the Afterlife. If the person's heart (spirit) balanced with Ma'at's Feather of Truth, they passed. However, if the heart was heavier than the feather then the person did not pass. Thoth always provided guidance for the deities and regulated common everyday complaints and created new laws. Thoth suggested that if a problem couldn't be solved, then a group should get together as an assembly and discuss it.

## **Thoth Invocation**

I invoke Tahuti, the Lord of Wisdom and of Utterance; the god that cometh forth from the veil.  
Oh thou, majesty of the godhead, wisdom-crowned Tahuti, Lord of the gates of the universe.  
Thee I invoke.  
Oh thou of the ibis head.  
Thee I invoke.  
Thou who wieldest the wand of double power.  
Thee I invoke.  
Thou who bearest in thy left hand the rose and cross of light and life.  
Thee I invoke.  
Come thou forth, and aid and guard us in this work of art.  
So mote it be.

## **Meditation & Discussion**

### **Thoth Meditation**

Visualise you are staring up at a dark blue sky, you notice how perfect the moon looks. As you look at the moon you notice that the clouds are forming a circle around the moon, highlighting a perfect silver centre and forming an incredible halo effect. You keep on looking at the centre and you notice a gradual change in colour from the silver to a deep indigo. You are transfixed looking at the indigo colour at the same time feeling a tingly feeling in your third eye as it gradually opens.

Suddenly you see a column of light descends from the core of the indigo colour. It immerses you in a spectrum of light. The light is the highest vibration, pure, powerful & beautiful. The light is alive with Divine light. You notice a being within the light it also moves as a wave of light, undulating, vibrating, energy flowing down its body connecting directly to you. As it becomes clearer you notice this being is the God Thoth in his sacred Ibis form. Feel his presence and the positive effect he has on you. Thoth gives you his sacred quill and parchment so you can write down goals for your new creation. With each word written you are recreating yourself.

Thoth's light forms an infinity symbol above you as you absorb this light into your aura. You feel the cosmic energies flowing through the meridians of your body. As the energy moves through you and into your etheric layers see the infinity symbol within you strengthening with the light of Thoth.

Now open your mind to receive Thoth's blessing of wisdom. Allow Thoth's light to awaken you with a new vibration, one that is full of unstoppable potential.

You thank Thoth for his light of wisdom. The light gradually fades away, the indigo light changes back to the dark blue sky and you become fully aware of your body and your energy and you are ready to move forward with your life.
